Hi Adriana,

This happened between 12 midnight & 1 pm on Dec. 24. The sight made me sick to my stomach. Our safety patrol ends at midnight each day. I can’t believe people can be so destructive. Beyond that, it’s a $5,000 smart trash can. Of course, we have our suspicions as to who set the fire, but for now we just need it removed. I’m going to check to see if there are any security cameras nearby. Unfortunately, it is bolted to the sidewalk. Removal may not be so simple.

We also need standard LASAN trashcans delivered ASAP.
